Core Restaurant Gameplay

Overview

- Players start with an initial balance of 200 Coins.
- The starting restaurant for players is the **Dholakpur/Jungle Cafe**.
- Restaurants operate without level limits, allowing players to play indefinitely.
- Levels are predefined until the completion of the First-Time User Experience (FTUE).
- After the FTUE, levels are switched to a randomized structure.
- Players can unlock new restaurants by reaching specific level thresholds.
- The number of customers in a level increases as the player progresses further. This resets after purchasing a new restaurant.
- Unlocking a new restaurant activates passive income generation from previously owned restaurants

Power-Ups (can be used during a level)

- **Ladoo**: All customers that are waiting for their orders to be served will get Ladoo, refilling each customer's Patience bar. **(Unlocked at Level 5 of Dholakpur/Jungle Cafe) (initial count 3)**
- **Wonder Dish**: Use this to fill any customer's entire order, no matter how many dishes they ordered. **(Unlocked at Level 12 of Dholakpur/Jungle Cafe) (initial count 3)**
- **Super Delivery**: This power-up allows you to serve all the customers at the counter at once. **(Unlocked at Level 15 of Dholakpur/Jungle Cafe) (initial count 3)**

Boosters (can only be used before a level begins)

- **Super Cook**: All food items that have a cooking timer are now cooked instantly and will not burn. **(Unlocked at Level 6 of Cake Shop) (initial count 3)**
- **Turbo Skates**: Accelerate your movement around the kitchen for the whole level. They will help you serve customers much faster. **(Unlocked at Level 6 of Campsite Cafe) (initial count 3)**
- **Double Profit**: All coins gained in that level are doubled. **(Unlocked at Level 12 of Cake Shop) (initial count 3)**

Lives System

- Players begin with 5 initial lives.
- A life is lost upon level failure or quitting.
- Once all lives are depleted, gameplay is paused.
- Individual lives regenerate over a 15-minute period. Full life restoration takes 75 minutes.
- Players can expedite life restoration by spending 5 Gems or get 1 life by watching an Rewarded Ad.

Restaurant, Customization and Upgrades

- Each restaurant can be customized and upgraded as the player progresses further into the game.
- The player can spend coins earned by running the restaurant to upgrade and customize it.
- **Upgrading food Items**
    - Every food item from a restaurant can be upgraded to increase its selling price.
    - To upgrade food items players need both Coins and Gems
- **Upgrading Kitchen Items**
    - Every food item from a restaurant can be upgraded to reduce the cooking item.
    - To upgrade kitchen items players need both Coins and Gems
- **Restaurant Upgrades**
    - Players can buy entertainment systems and other items to enhance the restaurant ambience.
    - There are limited items to buy in each level, each item increases the amount of tips given by the customers to the player during gameplay.
    - Each upgrade takes 10 minutes to get installed in the restaurant, this number increases by 5 minutes at each new restaurant.
- **Restaurant Customization**
    - Players can start customizing their restaurant once they have bought the New Interior from the **Restaurant upgrades.**
    - The customization contains:
        - 4 Sets of Tables and Chairs
        - 7 Sets of Wall Decor Items
        - 7 Sets of Wallpapers (If a restaurant has walls)
        - 5 Sets of Floors
        - 4 sets of Ceiling Hangables (If a restaurant has ceiling)

<u>Level Structure, Level Failure, Level Goals and Customers</u>

Level Structure

Each level is generated by the availability of the food items the player holds. Levels are indefinite.
Every new restaurant resets the Level counter to 1.

Level Failure Conditions

- A level fails if the player doesn’t complete the level goals.
- A level can also fail if the player lacks required upgrades or items.

Level Goals

- **Level Goals System**
  - Each level has specific goals that must be completed to finish the level.
  - FTUE (First-Time User Experience) levels will have predefined goals.
  - Other levels will have goals that are dynamically generated by the system.
  - A level can have one or multiple goals active at the same time.
- **Types of Level Goals**
  - **Time-Based Goal:**
    - Complete the level within a given time limit.
  - **Customer Goal:**
    - Serve X number of customers.
    - Customers will continue arriving at the counter until all other goals are completed, even after the required number is served.
  - **Coin Goal:**
    - Earn X amount of coins during the level.
  - **Star Goal:**
    - Collect X number of Stars (a form of positive customer feedback or rating that will be used to determine the player's rank on the Leaderboard).

Dynamic Level Objectives (Post-FTUE)

After the FTUE (First-Time User Experience) levels, all future levels are **system-generated**. The difficulty scales based on player progression using a **simple formula**.

Master Formula

$$Objective = Base + (Level \times Growth)$$

- **Objective** = The target value for Stars, Coins, Timer, or Customers in that level.
- **Base** = Starting value for the objective at Level 1 of a restaurant.
- **Level** = Current level number (after FTUE).
- **Growth** = Increment value added per level, which controls how quickly difficulty scales.

Objective Definitions & Formulas

1. Customers to Serve

How many customers must be served to complete the level.

$$Customers = 2 + (Level \times 2)$$

- **Base = 5** (starting customers).
- **Growth = 2** (two extra customers per level).

2. Coins Goal

The minimum number of coins the player must earn in the level. Coins are earned from **dish prices + tips**.

$$Coins = 140 + (Level \times 10)$$

- **Base = 140** (starting coin goal).
- **Growth = 10** (extra coins required each level).

3. Stars Goal

The minimum number of stars (customer ratings) needed to complete the level. Stars are awarded based on how fast and accurately the player serves.

$$Stars = 4 + (Level \times 1)$$

- **Base = 4** (starting star goal).
- **Growth = 1** (one extra star per level).

4. Level Timer (seconds)

How much time the player has to complete the level. As levels progress, the timer shrinks to increase challenge.

$$Timer = 180 + (Level \times 15)$$

- **Base = 180 seconds** (3 minutes at the start).
- **Growth = 15** (fifteen seconds more per level).
- **Minimum cap:** 60 seconds (to prevent impossible timers).

5. Example at Level 10

- **Customers:** 2 + (10×2) = **22**
- **Coins:** 140 + (10×10) = **240**
- **Stars:** 4 + (10×1) = **14**
- **Timer:** 180 + (10×15) = **330 seconds**

Customers

Every Customer has a patience level of 5 Hearts that reduces overtime (30 seconds). The end value on the customer's patience level determines the amount of tips and Stars the player will receive. If a customer’s patience level runs out then the player loses the customer.

- **Tips**
  - The amount of tips the player can receive is decided by the Restaurant Upgrades
  - If the player competes an order under 2 hearts they receive full tip
  - If the player competes an order under 4 hearts they receive half of the tip
  - If the player competes an order with more than 4 hearts consumed they receive 0 tips.
- **Stars**
  - A form of positive customer feedback or rating that will be used to determine the player's rank on the Leaderboard
  - If the player competes an order under 2 hearts they receive 1.2 Stars

        - If the player competes an order under 4 hearts they receive 0.5 Stars
        - If the player competes an order with more than 4 hearts consumed they receive 1 Stars.
- **Difficulty Scaling**
    - Game adjusts based on player performance
        - 3 Consecutive wins: Decrease patience time by 30%.
        - 3 Consecutive losses: Increase patience time by 10%.

Dishes

Dish Wastage Rules

- A dish is wasted if it gets burnt.
- A dish is also wasted if it's incorrectly made — even if it has all ingredients, but not in the way the customer ordered.

Addons

- Players can add extra elements to their Dish from the Addons
- Players can stack up multiple Addons as the Customer desires.

Rewards

Gameplay Rewards

- Players Receive Coins and Stars as a Level completion Rewards
- Coins are received by selling items and getting tips
- Stars are received by fulfilling customers orders.

Level Chests

- **First Chest**
    - Unlocks after completing 5 levels.
    - Example: If you start from Level 0, you'll get the chest at Level 5.
- **Progress Reset**
    - After you open a chest, the "levels completed" counter for the next chest starts again from 0 (not from the total levels you've played in the game).
- **Second Chest**
    - Unlocks after 8 more levels from the last chest.
    - This means you must complete 3 more levels than the first chest required (5 → 8).
- **Third Chest and Beyond**
    - Each new chest requires 3 more levels than the previous one.
    - Example progression of "levels needed" after each chest:
        - 1st chest → 5 levels needed to unlock
        - 2nd chest → 8 levels needed to unlock
        - 3rd chest → 11 levels needed to unlock
        - 4th chest → 14 levels needed to unlock

        - 5th chest → 17 levels needed to unlock
        - and so on.
- **New Restaurant Reset**
    - If you start a new restaurant, the requirement resets back to 5 levels for the first chest.
    - After that, the same pattern of increasing requirements continues.
- **Chest Rewards**
    - Players can earn Gems, Coins, Power-ups, boosters and Lives from each chest.
        - Gems: The number of Gems awarded from chests is random within a specified range for each restaurant.
            - Restaurant 1: 1 to 4 Gems
            - Restaurant 2: 3 to 6 Gems
            - Restaurant 3: 5 to 9 Gems
            - And so on...
        - Coins: The number of Coins awarded from chests is random within a specified range for each restaurant.
            - Restaurant 1: 100 to 300 Coins
            - Restaurant 2: 200 to 500 Coins
            - Restaurant 3: 500 to 900 Coins
            - And so on…
        - Any 1 Power-up or booster is rewarded once a chest is opened.

Achievements

- Tasks are defined for the player, they can complete the tasks and earn gems.
- Upon task completion, the task's difficulty and reward increase, offering multiple levels of challenge for some achievements and 3 levels of challenge for some achievements.
- For example:
    - Spend 5000 Coins on Upgrades (initial tier)
        - Reward: 1 Gem
    - Spend 25000 Coins on upgrades (increased difficulty and reward)
        - Reward: 2 Gems

List of Achievements can be found in this LINK

Rewarded Ads

- Players are given the option to Watch an ad to claim 3 Gems. There is no limit to watching the ad.
- A Rewarded Ad pop-up should come up at frequent intervals.

Restaurants

Campsite Cafe

Players start their journey with Dholakpur/Jungle Cafe as their First Restaurant,
List of Food Items can be found in this LINK

Dishes

Dishes that can be ordered in this Restaurant:-

- **Main Dish Types**
    - Aloo Patty Burger
        - Required Item
            - Burger Bun
            - Aloo Patty
    - Paneer Burger
        - Required Item
            - Burger bun 2
            - Paneer Patty
    - **Available Toppings**
        - Cheese
        - Onion and Tomato
        - Lettuce
        - Cheese + Onion and Tomato
        - Cheese + Lettuce
        - Lettuce + Onion and Tomato
        - More can be added together
    - **Final Combinations**
        - Each cake can be customized by:
            - Selecting a **Dish Type** (Aloo Patty Burger or Paneer Burger)
            - Adding **one or more Toppings**
- **Snacks**
    - French Fries
    - Paneer Pops
    - Chip
- **Beverages**
    - Cola
    - Orange Juice

FTUE

FTUE is only set in certain levels and these levels will be hand crafted, the levels other than the FTUE are system generated depending what kind of food item and kitchen upgrade the players have in their inventory.

1. **Level 1**:- Serve 2 Customers (disable patience bar)

    a. Customer 1 (Aloo Patty Burger)
        i. Highlight the thing the customer wants to order.
        ii. Prompt the Player to click on the **ALOO PATTY** to pick it up. (Highlight the Aloo Patty)
        iii. Prompt the Player to click on the **STOVE** to place the **ALOO PATTY** onto it and cook it (Highlight the Stove)
        iv. It takes 10 seconds to cook a food item, decrease the timer to 5 seconds for FTUE and prompt the player to click on the stove to pick up **ALOO PATTY.**

v. Prompt the player to click on the **BURGER BUN** to add the **ALOO PATTY** to it.
vi. Prompt the player to click on the **CUSTOMER** to serve the Burger.(Highlight the Customer)
vii. Prompt the player to click on the coins placed on the counter. (Highlight the coins with a text (Clear the counter for the next customer))

b. Customer 2 (Cola) This customer should come at the counter when the player has completed step five of the first customer.
   i. Highlight the thing the customer wants to order.
   ii. Prompt the Player to click on the **DRINK DISPENSER** to start dispensing the drink (Highlight the Drink Despenser)
   iii. Prompt the Player to click on the **DRINK DISPENSER** again to pick up the COLA (Highlight the Drink Despenser)
   iv. Prompt the player to click on the **CUSTOMER** to serve the Cola.(Highlight the Customer)
   v. Prompt the player to click on the coins placed on the counter.

2. **Level 2**:- Server 2 Customers (Show patience bar)

   a. Orchestrated Scenario
   An **ALOO PATTY** is already kept on the **STOVE** and is burning
      i. Prompt the Player to click on the **STOVE** to pick up burnt **ALOO PATTY**.(Highlight the STOVE)
      ii. Prompt the Player to click on the **DUSTBIN** to throw the burnt **ALOO PATTY**. (Highlight the DUSTBIN)

   b. Serve Customer 1 and 2 (both together)
   Customer 1 has ordered **Aloo Patty Burger** and Customer 2 has ordered **French Fries**
      i. Highlight the thing the Customer 1 wants to order.
      ii. Prompt the Player to click on the **ALOO PATTY** to pick it up. (Highlight the Aloo Patty)
      iii. Prompt the Player to click on the **STOVE** to place the **ALOO PATTY** onto it and cook it (Highlight the Stove) (The Stove will not burn the food item in this level)
      iv. Highlight the decreasing **Patience Bar** of customer 2 and prompt the player to click on the **French Fries** and then on the customer to fulfil their order. (Stop the cooking timer until the **Patience Bar** is being highlighted)
      v. Prompt the player to pick up the **ALOO PATTY** after Customer 2 has been served . (Highlight the Aloo Patty)
      vi. Prompt the player to click on the **CUSTOMER** to serve the Burger.(Highlight the Customer)
      vii. Prompt the player to click on the coins placed on the counter.

3. **Level 3**:- Server 3 Customers

a. **Customer 1** - Orchestrated Scenario
   A customer is already at the counter asking for a Cola but the player is currently holding an ALOO PATTY BURGER and French Fries.
   i. Highlight the thing the Customer wants to order.
   ii. Prompt the Player to click on the **DRINK DISPENSER** to start dispensing the drink (Highlight the Drink Despenser)

b. Serve Customer 2 and 3 (both together)
   Customer 2 orders Aloo Patty Burger and French Fries
   Customer 3 orders Chips and Cola
   i. No FTUE needed

4. **Level 4**:- Reach level goal earn 70 Coins

   a. Orchestrated Scenario
      i. Before the player starts Level 4, direct the player to the Upgrade screen and force upgrade Juice Dispenser. (Highlight every button the player has to press in order to Upgrade the Juice Dispenser)

   b. Reach Level goal
      i. Highlight the level goal **68 Coins**.

   c. Server 5 Customers (Customer 2,3,4 and 5 should only come after Customer 1 order has been completed)
      Customer 1 orders Orange Juice and Aloo Patty Burger
      Customer 2 orders Chips and French Fries
      Customer 3 orders Aloo Patty Burger and Chips
      Customer 4 orders Cola and Orange juice
      Customer 5 orders Paneer Pops
      i. Highlight the **Orange Juice** the Customer 1 wants to order.
      ii. Prompt the Player to click on the **Orange Juice** part of the **DRINK DISPENSER** to start dispensing the drink (Highlight the Orange Juice part Drink Despenser)
      iii. Let the player complete the rest of the order for customer 1 and other customers. No FTUE is needed in this level beyond this point.

5. **Level 5**:- Reach level goal earn 75 Coins

   a. Orchestrated Scenario (Ladoo Power-Up)
      Customer 1 is already at the counter with a Aloo Patty Burger and Cola order and their patience level is almost depleted (Highlight the patience bar)
      i. Prompt the player to click on the **Ladoo** power-up(Highlight the Power-Up icon)
      ii. Prompt the player to click on the customer to replenish their patience bar and then complete their order.
      iii. The rest of the customers should start coming at the counter after Customer 1 order has completed

   b. Reach Level goal (Server next 5 Customers)
      Customer 2 orders Chips and Paneer Pops

Customer 3 orders Chips and Orange Juice
Customer 4 orders Aloo Patty Burger and Cola
Customer 5 orders Aloo Patty Burger and French Fries
Customer 6 orders Orange Juice

i. No FTUE is needed here as the player has already been taught at this point.

6. **Level 6**:- Reach level goal earn 110 Coins and Serve 12 Customers (New booster unlocked)

   a. **Orchestrated Scenario**
   Before the player starts Level 6, direct the player to the Upgrade screen and force buy the **NEW INTERIOR**. (Highlight every player step)

   b. When the player starts the level, force them to use the **Turbo Skates** booster.

   c. No predefined Customer order is required in this level; it will be system generated depending what kind of food item and kitchen upgrade the players have in their inventory.

7. **Level 7**:- Reach level goal earn 120 Coins and Serve 12 Customers

   a. **Orchestrated Scenario** - Customer 1 orders Paneer Burger
      i. Prompt the Player to click on the **PANEER PATTY**to pick it up (Highlight the PANEER PATTY)
      ii. Prompt the Player to click on the stove to cook the **PANEER PATTY** (Highlight the Stove)
      iii. Prompt the player to pick up the cooked **PANEER PATTY** (cook instantly and doesn't get burned)
      iv. Prompt the player to click on the CUSTOMER to serve the **PANEER BURGER**.(Highlight the Customer)
      v. The rest of the customers should start coming to the counter after the Customer 1 order has completed.

   b. No predefined Customer order is required in this level; it will be system generated depending what kind of food item and kitchen upgrade the players have in their inventory.

8. **Level 9**:- Reach level goal earn X Coins, Serve X customers and Complete it in X Time Limit (Level timer is introduced from this Level)

   a. **Orchestrated Scenario**
      i. Before the player starts Level 9, direct the player to the Upgrade screen and force upgrade Trays. (Highlight every button the player has to press in order to Upgrade the Trays)

   b. Reach Level goal
      i. Highlight the level goals

c. No predefined Customer order is required in this level; it will be system generated depending what kind of food item and kitchen upgrade the players have in their inventory.

9. **Level 10:-** Reach level goal earn X Coins, Serve X customers and Complete it in X Time Limit

   a. Before the player starts Level 10, show a pop-up that will convey that the player has unlocked an Assistance.

   b. **Orchestrated Scenario**
      Customer 1 Orders Aloo Patty Burger with Cheese
      i. Highlight the Level Goals
      ii. Highlight the thing the customer wants to order.
      iii. Prompt the Player to click on the **ALOO PATTY** to pick it up. (Highlight the Aloo Patty)
      iv. Prompt the Player to click on the **STOVE** to place the **ALOO PATTY** onto it and cook it (Highlight the Stove) (Cook Instantly)

        viii. Prompt the player to click on the customer to complete their order. (Highlight the Customer)

Live Ops

All of these **Live-Ops** events should only be available to the **player** after **Level 3** has been cleared.

Daily Rewards

The **Daily Rewards** system motivates players to log in regularly by offering a **7-day reward streak**. Each consecutive day the player logs in, they receive a specific reward, with the **7th day** granting a **mega reward** of significantly higher value.

If a player **misses a day**, they will not receive the reward for that day and will instead move forward to the next day's reward in the sequence. However, players have the option to **watch a rewarded advertisement** to instantly claim the missed reward, ensuring they don't lose out on the streak's benefits.

Spin Wheel

The **Spin Wheel** feature gives players the chance to win exciting rewards through a daily spin. Each player receives **one free spin per day**, granting a **random reward** from the available prize pool.

After using the free spin, players can continue spinning the wheel **up to 5 additional times per day** by watching **rewarded advertisements**. Each extra spin provides another chance to earn rewards, making the feature both engaging and rewarding for active players.

Idle Rewards

The **Idle Rewards** system is designed to re-engage players who have been inactive for a set period of time. If a player returns to the game after **6 or more consecutive days** of inactivity, they will be greeted with a **special "Welcome Back" reward** as an incentive to continue playing.

In addition, players have the option to **double their idle rewards** by watching a **rewarded advertisement**, allowing them to maximize the value of their comeback bonus. This system not only rewards returning players but also encourages them to stay active and engaged with the game.

Daily Challenge (Starts after every power-up and booster has been unlocked)

Each day, players are presented with a **set of challenges** (e.g., 3–5 per day). Completing each challenge grants a corresponding reward. Challenges are completed sequentially—players must finish the current challenge to unlock the next one for that day.

Players also have the option to **skip any challenge** by watching a **rewarded ad**, instantly unlocking the associated reward without completing the gameplay task.

All challenges **reset every 24 hours**, offering a fresh set of tasks and rewards each day. The challenge types rotate daily to keep gameplay varied, while rewarding progression and difficulty scale as players advance through the daily set.

Weekly Challenge (Starts after every power-up and booster has been unlocked)

A total of **20 rewards** will be preset in advance. To earn these rewards, players must complete specific challenges. Completing one challenge unlocks a reward, after which the player can begin the next challenge to work toward the next reward.

The objective in the weekly challenge will be the same, just the context of completing it will change in every new challenge.

Players also have the option to **skip the challenge entirely** and claim the reward instantly by watching an advertisement, allowing them to bypass the gameplay requirement.

All challenges **reset every week**, meaning players get a fresh set of challenges and can start working toward the rewards again.

Challenge Structure Example:

This pattern continues for future weeks, with the **challenge type changing** to keep gameplay fresh, while the reward progression and increasing difficulty remain consistent.

- **Week 1:** *Cook Aloo Burger Patties*
    - **Reward 1:** Cook 10 Patties
    - **Reward 2:** Cook 25 Patties
    - **Reward 3 and onward:** The *Patty* requirement increases further for each new reward.
- **Week 2:** *Collect stars*
    - **Reward 1:** Collect 25 Stars
    - **Reward 2:** Collect 40 Stars
    - **Reward 3 and onward:** The Star requirement increases further for each new reward.

Streaks (Starts after every booster has been unlocked)

When a player achieves a **win streak**, they are rewarded with free boosters at the start of their next level.

- **6 consecutive wins:** The player begins the next level with **1 free booster**.
- **8 consecutive wins:** The player begins the next level with **2 free boosters**.
- **12 consecutive wins:** The player begins the next level with **3 free boosters**.

If the player **loses a level** during an active win streak, they are given the option to **maintain their streak** by watching advertisements. The **number of ads required** depends on the streak tier the player is currently in — higher streaks may require watching more ads to preserve.

If the player chooses not to watch the ads or fails to do so, the win streak will **reset back to zero**.

Weekly Leaderboard

During gameplay, players collect **stars**, and the total number of stars accumulated determines their **rank** on the weekly leaderboard. At the end of each week, the **top three positions** on the leaderboard are rewarded with special **chests**. This Leaderboard resets every week.

These chests can contain a variety of valuable rewards, including:

- **Coins**
- **Gems**
- **Power-ups**
- **Boosters**

This leaderboard system encourages competition and consistent play, as players aim to collect more stars each week to secure a top position and earn the most valuable rewards.

Gold Pass

The **Gold Pass** contains both **free** and **premium** rewards. A total of **32 rewards** are set in the list.

- **Free Members:** Can claim **31 rewards** from the list.
- **Premium Members:** Can claim **63 rewards** in total, which includes all free rewards plus exclusive premium rewards.

The **first reward** on both the free and premium tracks can be claimed instantly without completing any challenges. For all rewards after the first, players will need to use **tickets** to unlock them.

Earning Keys/Tickets:

- Tickets are earned by **beating levels** in the game.
- The number of Tickets required increases with each reward:
    - Reward 1 → **1 Tickets**
    - Reward 2 → **5 Tickets**
    - Reward 3 → more than Reward 2, and so on, with the requirement gradually increasing for each reward.

Special Premium Reward:

- The **32nd reward** for premium members is a **bonus reward** that grants a **mega reward** with higher value than any other in the list.

Additional Tickets Options:

- Players can watch a **rewarded ad** to instantly earn **1 extra Ticket** without playing a level.

Gold Pass Duration:

- The Gold Pass remains active for **1 month or 1 week.** (*depending on the pass purchased*).
- At the start of the **next month or week**, a **new Gold Pass** with a fresh set of rewards and requirements becomes available.

Daily Subscription Plan

Overview:
Players can purchase a daily subscription that delivers valuable resources every 24 hours, boosting their gameplay and progression.

Daily Rewards (on each login):

- **5000 Coins** - Spend freely on upgrades and decor.
